Granton A. Jindal

Email: gjindal@ucsd.edu; Phone: 225-284-1690
8308 Regents Rd. Unit 3H; San Diego, CA 92122

EDUCATION

Princeton University — Princeton, NJ
Ph.D., Chemical Engineering — Nov. 2017
Certificate, Bioengineering — Aug. 2017
M.A., Chemical Engineering — Apr. 2014
Research Title: "Analyzing pathogenic MEK variants in zebrafish"

California Institute of Technology — Pasadena, CA
B.S., Bioengineering, with Honor — Jun. 2012
Research Title: "Investigating AND gate topologies to aid in proteomic analysis"

RESEARCH EXPERIENCE

Department of Medicine, University of California San Diego — La Jolla, CA
Postdoctoral Researcher; Adviser: Prof. Emma K. Farley — Nov. 2017 – Present
Understanding how mutations in noncoding areas of the genome affect heart-specific gene expression using high-throughput assays in Ciona. Demonstrated that affinity-optimizing mutations within cardiac enhancers disrupt heart development.

Lewis-Sigler Institute, Princeton University — Princeton, NJ
Graduate Researcher; Advisers: Prof. Stanislav Y. Shvartsman, Prof. Rebecca D. Burdine — Jan. 2013 – Sep. 2017
Demonstrated a ranking of MEK1 mutations found in RASopathies, human developmental disorders, using functional assays in the embryonic zebrafish. Showed context-dependent ERK signaling with these MEK1 mutations in the embryonic zebrafish. Contributed data to help attain NIH grant R01 GM086537.

Kavli Institute for Theoretical Physics, University of California Santa Barbara — Goleta, CA
Santa Barbara Advanced School of Quantitative Biology 2016 Summer Research Course — Jul. 2016 – Aug. 2016
Quantifying BMP4 and Nodal signaling dynamics in human embryonic stem cells – Adviser: Prof. Aryeh Warmflash
Effects of mechanical forces on somite formation and gene oscillators in zebrafish – Adviser: Prof. Andrew C. Oates

California Institute of Technology — Pasadena, CA
Undergraduate Researcher; Adviser: Prof. David A. Tirrell — Jun. 2010 – Jun. 2012
Demonstrated split mutant Methionyl-tRNA Synthetase activity for split sites with in-gel fluorescence images using bacterial cell culture methods, molecular cloning, and Western blots. Showed that a HIS tag fused to an alkyne can be used to separate azide-labeled proteins using a Nickel-NTA column.

Louisiana State University — Baton Rouge, LA
Undergraduate Researcher; Adviser: Prof. Grover L. Waldrop — Jun. 2009 – Sep. 2009
Learned laboratory skills including polymerase chain reaction, molecular cloning, site-directed mutagenesis, and protein expression. Introduced specific mutations into the Biotin Carboxylase protein using these techniques.

AWARDS AND HONORS

Schulman Award for Cardiovascular Research, UCSD Division of Cardiovascular Medicine — Jun. 2022
Hartwell Postdoctoral Fellowship, The Hartwell Foundation — Nov. 2020 – Oct. 2022
Hilde Mangold Postdoctoral Symposium Participant, Society for Developmental Biology — Jul. 2020

AHA Postdoctoral Fellowship, American Heart Association Jan. 2019 – Oct. 2020
Chancellor's Research Excellence Scholarship, UC San Diego Jan. 2018 – Sep. 2019
Cardiology Postdoctoral Training Program Fellow, National Institutes of Health Jan. 2018 – Dec. 2018
Graduate Research Fellowship, National Science Foundation Jul. 2013 – Jun. 2015, Jul. 2016 – Jun. 2017
Poster Award, 11th Structural Birth Defects Meeting, Bethesda, MD Apr. 2017
DeLill Nasser Award for Professional Development in Genetics, Genetics Society of America May 2016
Schowalter Travel Award, Princeton University Chemical & Biological Engineering Mar. 2016
Amgen Scholars Research Fellowship, Amgen Foundation Jun. 2011
Summer Undergraduate Research Fellowship, Caltech Jun. 2010
Valedictorian of Class of 2008, Baton Rouge Magnet High School May 2008
Intel Science Talent Search Semifinalist, Society for Science and the Public Jan. 2008

LEADERSHIP EXPERIENCE AND SERVICE

Reviewer, The Catalyst @UCSD	Jan. 2022 - Present
AHA Reviewer in training	
Peer reviewer for *Human Mutation, Biophysical Journal, Molecular Ecology Resources, Journal of Experimental Zoology Part B: Mol. and Dev. Evol.*	
Moderator, The Annual Summer Research Conference UC San Diego	Aug. 2020
Alumni Volunteer Interviewer, Princeton University Alumni Schools Committee	Feb. 2017 – Mar. 2020
Member, Princeton University Graduate Engineering Council	Feb. 2016 – Jun. 2017
Caltech Upper Class Counselor	Sep. 2011 – May 2012
Co-Editor-in-Chief, Caltech Undergraduate Research Journal	Jun. 2011 – May 2012
Associate Editor, Caltech Undergraduate Research Journal	Oct. 2008 – May 2011
Caltech RISE Tutoring Program, Tutored Pasadena High School Students	Oct. 2010 – May 2012

Caltech Dean's Tutoring Program, General and Organic Chemistry Oct. 2009 – Mar. 2010, Jan. 2011 – Mar. 2011

TEACHING AND MENTORING EXPERIENCE

Discussion leader, Monthly journal club on evolutionary developmental biology Jan 2018 – Dec 2019
Completion of Pathways to Scientific Teaching course, taught by Diane Ebert-May Mar 2018
Assistant in Instruction, Introduction to Chemical Engineering Principles undergraduate course Fall 2015
Instructor, Introduction to Biotechnology intersession course Wintersession 2015
Research Mentor

Alexis Bantle, Biological Sciences graduate rotation student	Jan. 2021 – Feb. 2021
Joe Solvason, Bioinformatics graduate rotation student	
Sally Lee, '19; Summer Molecular Biology undergraduate student	Jun. 2017 – Aug. 2017
Aleena L. Patel, Chemical Engineering graduate rotation student	Dec. 2015 – Jun. 2016
Iason Kountouridis, '17; Mathematics undergraduate student	Jun. 2015 – Sep. 2016
Ji-Sung Kim, '18; Spring term Computer Science undergraduate student	Feb. 2015 – May 2015
Courtney A. Balgobin, '15; Senior Thesis Molecular Biology undergraduate student	Apr. 2014 – May 2015
Hope Xu, '15; Summer Molecular Biology undergraduate student	Jun. 2013 – Aug. 2013

PROFESSIONAL MEMBERSHIPS

American Heart Association Oct. 2017 - Present
American Association for the Advancement of Science Dec. 2015 - Present
Genetics Society of America Dec. 2015 - Present
Society for Developmental Biology Feb. 2015 - Present
